The Birds Fly Southward

to avoid the cold. And well before the coming of the snow, the thrifty squirrel lays by a store of nuts. The bee remembers that the flowers will fade. All nature seems to sense the coming need. And man, alone, of all the living things, seems blissfully content to live Today as if Tomorrow's sun would never rise."

We defy the very laws of nature when we fail to provide for the future.

WITH THE WOMEN POLITICALLY PSEAKING

Fifteen women have already been elected delegates to the Republican National Convention as well as a number of alternates. Miss Minnie J. Nielson of North Dakota is the latest woman elected. Miss Nielson is State Superintendent of Public Instruction. Mrs. John Glover South, chairman of the Woman's division of the Republican National Committee, was the first woman elected delegate, and is one of the 'Big Four' from Kentucky. Mrs. E. E. Butler, of St. Louis, will be a delegate from Missouri to the National Convention. New Mexico Republicans at the state convention considered the request from the National Committee to name Mrs. Otero-Warren a delegate from this state, but as only legal voters can serve as delegates and women are not yet enfranchised in New Mexico, it could not be done.

Women delegates to the Republican National Convention may hold the balance of power in selecting the presidential nominee is the prediction of Republican leaders in Chicago. One hundred women are expected to be elected to the convention according to Mrs. George W. Reinecke, secretary of the Woman's Division of the Republican National Committee.

Mrs. B. R. Lewis, member of the Republican state central committee of Wisconsin has some interesting things to say about the advantages the Republican party offers women voters.

"The guarantee of the Republican platform will incorporate planks for the proper enforcement of the child labor laws, the minimum wage laws, health standards and the many reforms for which women are laboring, is assured by the presence of women on the National Committee of Platforms and policies," declared Mrs. Lewis. "Having been the main influence which has given to women the ballot and having given her the political opportunity to right the wrongs concerning her sex, the Republican party offers to women further opportunities for progression, a wider sphere in which to exercise her talents and participation in the highest aims and motives for which a political party can stand."

Women have been benefitted particularly by laws for compulsory education and prohibition, and legislation for women and children has formed a prominent part of legislative activity since the first state passed suffrage laws, according to Mrs. Lewis. "A Republican congressman was the first person to introduce suffrage into legislative halls. The first eight legislatures to ratify the amendment were Republican."

DO YOU KNOW?

Do you know that more than one hundred-fifty cases of delinquent girls have been taken from New Mexico by the Salvation Army rescue workers and saved to society and the state?

Do you know that more than fifty New Mexican men and boys have already been reached by the Salvation Army industrial schools and have been helped to a life of usefulness?

Do you know that the Salvation Army makes a dollar go further than any like charitable organization on the face of the earth, and the money you give goes where the most good can be accomplished?

Do you know that under the new nation-wide program we, as civilians, as laymen and laywomen, business and professional people outside the Salvation Army ranks, by raising this money for this great cause, are in this way doing a big part, in that the regular personnel of the Army can devote its time and energies to the work of service in the field?

Do you know that your own local Advisory board is a permanent institution just as the State Board is permanent, and that from now on there is to be a systematic program in the matter of securing the funds and expending them and that your money will be spent for the needs of our own section of the country; that New Mexico is to assist the Salvationists only in taking care of New Mexico's problems?

Do you know that New Mexico is the first state in the nation organized, and the first to hold its convention under the new program? Many other states have followed our leadership. We are the pioneers and we must make this service program a success.

Do you know that the three corps towns—Roswell, Deming and Albuquerque—are to raise one-third of the entire state budget? Also, that Albuquerque will secure \$15,000 in Bernalillo County to apply on a permanent home here; which will be of tremendous benefit to every county in the state. However, not a cent of the funds raised in any of the other counties will be used in financing any of the corps budgets, on for the Albuquerque building proposition, but will be expended for relief work in caring for New Mexico's less fortunate?

THE BANK BEHIND THE FARMER

The Farmer who is without the backing and support of a strong bank is treading upon dangerous ground.

The business of farming is, at times, precarious; and no farmer can afford to be without the protection that is afforded by a friendly connection with a helpful bank.

Open an account with us; handle your business through this bank, and establish the credit you may later need.
